To whom it may concern

We can confirm that John O' Connor of Excalibur (UK) Ltd delivered presentations to the Burngreave BME community to attempt to motivate them to consider self-employment.

John was recruiting for the Business Link South Yorkshire Shield programme and he successfully convinced several ethnic minority persons to attend the programme.

We have been in constant contact with Excalibur on the progress of our delegates and it appears that a number of them will launch innovative new businesses.

We can recommend Excalibur, and the Shield Programme, to other community groups who seek to engage BME groups in enterprise training.

Yours Faithfully

Saghir Ahmed
